

## Air Shows

## *We're Living History and Family Fun*

Our founder, Cole Palen, grew up next to a great 1930's Hudson Valley airport dreaming that he would own and fly the machines he saw overhead and spent the rest of his life bringing the vision alive. Starting with six derelict WWI planes, Cole made the Aerodrome into America's first flying museum of antique aircraft and replicas, achieving worldwide fame. He believed, "It isn't an airplane if it doesn't fly," and the non-profit Rhinebeck Aerodrome Museum continues his work of collecting, restoring and exhibiting more than 60 aircraft of the Pioneer, WWI and Golden Ages of aviation. Cole also believed in having fun and presenting his treasures in an accessible way and we continue this tradition. We've been flying, educating and entertaining for six decades.
